BTVS-654KT2S2 / BTVS-754KT2S2

Binatone has an incredible heritage.

Established – 1958 in London, UK.

We are an absolutely customer centric company!

With more than 60 years delivering quality products to our customers

in more than 75 countries – our global footprint enables economies of scale.

This allows us to offer you some of the world's highest performance,

quality & value products available in the market today.

Our commitment lies solely in delivering high quality, affordable products.

Our international team is constantly pursuing every effort to make

products not just 'appliances' but 'lifestyle improvements'.

Check out all the latest Binatone products at:
www.binatonelifestyle.com

IMPORTANT SAFEGUARDS

When using electrical appliances – basic safety precautions should always be followed to reduce the risk of fire, electric shock and/or injury to persons.

✓ READ ALL INSTRUCTIONS

✓ Make sure your power supply is consistent with the rated specification of the product before connecting.

✓ Do not operate any electrical appliance with a damaged cord or plug – or after the appliance malfunctions or has been dropped or damaged in any manner. Do not modify or repair the appliance yourself. Return the appliance to the nearest authorised service facility for examination, repair or adjustment.

✓ To protect against electric shock, do not expose the appliance to rain or moisture.

✓ Do not pull, twist or otherwise abuse the power cord.

✓ Use this appliance only for its intended use – as described in this manual.

✓ Do not place this TV on an unstable cart, stand or table. Placing the TV on an unstable base can cause the TV to fall, result in serious personal injuries as well as damage to the TV. Use only a cart, stand, bracket or table recommended by the manufacturer or salesperson.

✓ Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation for the TV and to protect it from overheating. Do not cover the ventilation openings in the cabinet and never place the set in a confined space such as built-in cabinet unless proper ventilation is provided. Leave a minimum 10 cm gap all around the unit.

✓ This appliance should be placed away from heat sources, such as radiators, stoves and other room heaters.

✓ The use of accessories not included, recommended, or sold by Binatone is prohibited and may cause damage, fire, electric shock or injury.

✓ Position the appliance and the cord so that nobody can accidentally overturn it.

✓ Do not use the appliance if it has mechanical defects (dents, cracks etc). Get it checked by the nearest authorized service centre.

✓ For added protection for this TV during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will protect the TV from damage due to lightning and power-line surge.

✓ An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. Where installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

✓ Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.

✓ If an outside antenna or cable system is connected with the TV, be sure the antenna or cable system is grounded so as to provide protection against voltage surges and built-up static charges.

✓

|	**CAUTION**	
	RISK OF ELECTRIC SHOCK DO NOT OPEN	!
This lightning flash with arrowhead symbol in an equilateral triangle alerts users to the presence of uninsulated dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock.	Warning: To reduce the risk of electric shock, do not remove cover(or back). No user serviceable parts inside. Refer servicing to qualified service personnel.	The exclamation mark within an equilateral triangle alerts users to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

SAFETY INFORMATION

Warning

High voltages are used in the operating of this product.
Do not remove the back cover of the cabinet. Refer servicing to qualified service personnel.
Warning

To prevent fire or electrical shock hazard, do not expose the main unit to rain or moisture.

Warning

Do not drop or push objects into television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

Caution

If the television is to be built into a compartment or similarly enclosed, the minimum distances must be maintained.
Heat built up can reduce the service life of your television, and can also be dangerous.

Caution

Never stand on, lean on, push suddenly the product or its stand.
You should pay special attention to children.

Caution

Do not place the main unit on an unstable cart stand, shelf or table.
Serious injury to an individual, and damage to the television, may result should it fall.

Caution

When the product is not used for an extended period of time, it is advisable to disconnect the AC power cord from the AC outlet.

Caution

Avoid exposing the main unit to direct sunlight and other sources of heat. Do not position television receiver directly on other products which give off heat. E.g. Video cassette players, audio amplifiers. Do not block the ventilation holes in the back cover. Ventilation is essential to prevent electrical failure. Do not squash power supply cord under the main unit.

Caution

The panel used in this product is made of glass. It can break when the product is dropped or applied with force. Individuals should execute caution when dealing with broken glass should the panel break.

Binatone

WARNING – SCREEN DAMAGE

Please avoid rendering fixed images on the screen for long periods. A fixed image means an image that remains static on the screen - for example, on-screen menus, black bars, and time display.
If you must use fixed images, reduce their on-screen time & reduce screen contrast and brightness to avoid screen damage.
Static images may cause permanent damage to the TV screen.

- Do not display static images on the LCD screen for more than two hours, as this can cause ghosting. To prevent ghosting, please reduce the brightness and contrast of the screen.
- Watching TV in 4:3 format for a long time may leave marks on the left and right edges of the screen and the border of the image. Avoid using this mode for a long time.
- Long-term display of static images in videos and games or computers can cause some blurring and ghosting due to screen burn.

Please correspondingly reduce the screen brightness and contrast when using the TV set in this way.
The ghosting, partial ghosting and other traces displayed on the TV screen for the above reasons are not within the scope of this warranty.

BEFORE FIRST USE

Binatone

Carefully remove all packaging from the appliance and its accessories. Wipe the appliance to remove any dust as described in the "CARE AND CLEANING" section.

Assemble the product following the setup & operating instructions below.

Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

– Using cabinets or stands recommended by the manufacturer of the television set.
– Only using furniture that can safely support the television set.
– Ensuring the television set is not overhanging the edge of the supporting furniture.
– Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
– Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
– Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

OPERATING INSTRUCTIONS

SELECT INPUT SOURCE
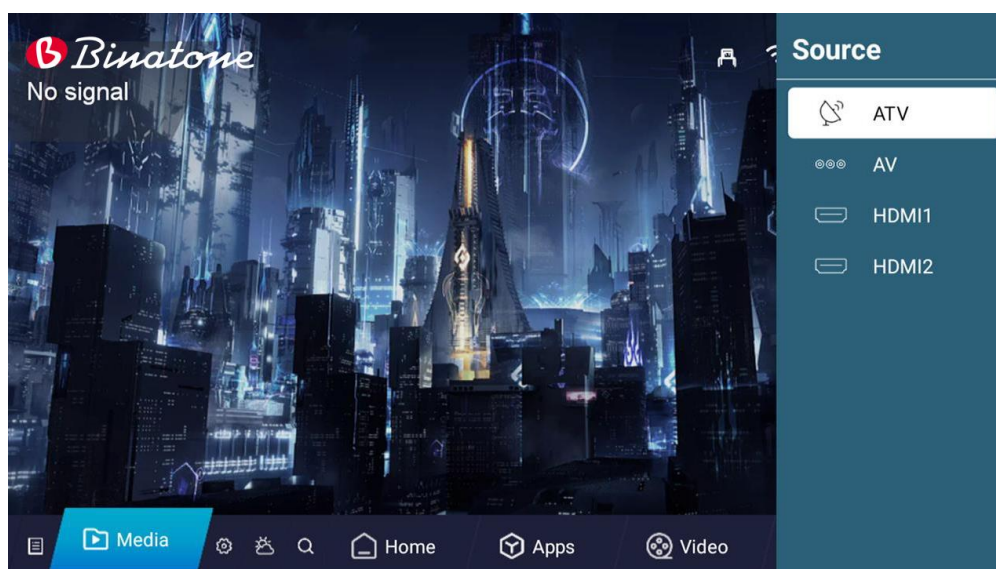

Move to the MEDIA tab on bottom edge using the ◄/► button.

Press **SOURCE** button to display the input source input list.

Press ▲/▼ button to select the input source you want to watch

Press **ENTER** button to select & enter the input source

MAIN MENU
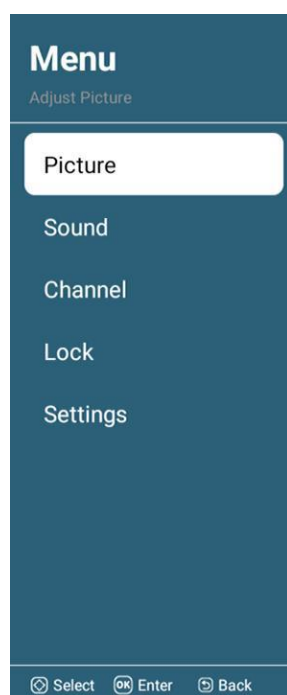

- Press **MENU** button to display the MAIN OSD MENU
- Press ▲/▼ button to select the MENU you want

TROUBLE SHOOTING GUIDE

Many apparent malfunctions are caused slight misadjustments of the regular controls of your unit or equally simple causes. If any difficulty arises through normal use of your unit, check the list of common problems in the list below.

If the problem persists, unplug your unit and contact your dealer.

SYMPTOM	METHODS OF CHECKING OR ADJUSTING
No picture or sound	Check the AC plug is in the socket. Check house circuit breaker is in the ON position.
Picture normal but no sound	Check that the volume is not at its minimum setting or on MUTE.
Remote control not working	Check that TV set power is ON. Check batteries are operational and inserted correctly. Make sure infrared receiving window on TV is not exposed to strong lighting or blocked in any way.
Cannot receive any TV signal	Ensure SOURCE switch is set to TV. Check aerial location and connection. Re-check your tuning method.
No program signals output from external source	Check SOURCE button to make sure it is in the correct position for reception.
Contrast and brightness problems	Make necessary adjustments to relevant settings.
Intermittent poor contrast and colour fading on all channels	Check aerial positioning
Dotted lines or stripes appear on screen	There may be Interference from another electrical product. Move appliance if it persists.
Snow on screen	Check aerial for broken circuit, loose connection or any visible damage.
Double images or 'ghosting'	Check aerial location and direction - strong winds may cause it to move. Also check whether mountains or tall buildings may be the problem. Minor adjustment of the direction of your antenna should keep the ghosting to a minimum.

Note: External rooftop/antenna adjustment should be left to a suitably qualified person.

CARE AND CLEANING

Unplug the TV from the wall outlet before cleaning.
Use a slightly damp, soft cloth to clean the TV set and its frame. Do not use such substances as alcohol, chemicals or household cleaners to clean the TV set.
TV screen may be damaged -do not use items to touch, push, rub or strike the screen.

SERVICE & CUSTOMER CARE

There are no user serviceable parts inside this appliance.

If the power cord or plug are damaged it must, for safety reasons, be replaced by Binatone or an authorised Binatone repairer.

If you need help with:
- using your product
- servicing or repairs (in or out of guarantee)
- spare parts

Please contact Binatone Customer Service at:

Have your model number & batch code ready – it is located on the rating label on your product

Binatone

WARRANTY

Save your proof of purchase sales receipt.

BINATONE warrants, subject to the conditions stated below, that from the date of purchase, this product will be free from mechanical defects for a period of one (1) year.

This is a domestic product – warranty does not cover products that have been used for commercial purposes.

BINATONE at its option, will repair or replace a product found to be defective during the warranty period. Should this product become defective by reason of improper workmanship or material defect during the specified warranty period, BINATONE will repair or replace the same effecting all necessary part replacements.

Transportation charges on parts, or products in whole, submitted for repair or replacement, under this warranty, must be borne by the purchaser.

CONDITIONS: This warranty is valid for the original retail purchaser from the date of initial retail purchase and is not transferable. Keep the original sales receipt. Proof of purchase is required to obtain warranty service or replacement. Dealers, service centres, or retail stores do not have the right to alter, modify or in any way, change the terms and conditions of this warranty.

Warranty registration is not necessary to obtain warranty on BINATONE products.

ABOUT YOUR PRODUCT WARRANTY: Most warranty repairs are handled routinely, but sometimes requests for warranty service may not be appropriate. For example, warranty service would NOT apply if the product damage occurred because of misuse, lack of routine maintenance, shipping, handling, warehousing or improper installation. Similarly, the warranty is void if the manufacturing date or the serial number on the product has been removed or the equipment has been altered or modified. During the warranty period, the authorized service dealer, at its option, will repair or replace any part that, upon examination, is found to be defective under normal use and service.

NORMAL WEAR & SERVICE/REPLACEABLE PARTS: This warranty does not cover normal wear of parts or damage resulting from any of the following: Negligent use or misuse of the product; Improper voltage or current; Use contrary to the operation instructions; Deviation from instructions regarding storage and transportation; Repair or alteration by anyone other than BINATONE or an authorized service centre; service parts replaced by user. Further, the warranty does not cover Acts of God, such as fire, flood, hurricanes, tornadoes etc.

Customers connecting BINATONE appliances directly to the mains power outlet or using a non-BINATONE stabilizer, risk voiding their BINATONE warranty. We recommend using quality BINATONE stabilizers for your protection – be wise, buy the best – always buy BINATONE

HOW TO OBTAIN WARRANTY SERVICE: Please contact BINATONE Customer Service (see Service &Customer Care section)
